

The Village Dentist

Dental Practice Information

Independent Living Residents

Since 1985, Dr Roger Lindsay and his team from the Pennant Hills Dental Centre, have continued to provide a comprehensive dental service to the independent residents at the ARV and to other residents in the Sydney area, from the Anglican Villages network and Pennant Hills Dental Centre.

Independent residents can utilise the services of our team at the ARV Village Dentist clinic which is a branch of the Pennant Hills Dental Centre.

Our experience at the ARV which offers the most modern resident aged care dental facility in a NSW retirement village setting, suggests that as a new resident we strongly advise a dental check before or early upon your arrival at the ARV.

Our **Resident Welcome Information Pack** provides simple guidelines for residents and carers for dental care at the ARV.

For further information about the services offered at the ARV visit us at www.thevillagedentist.com.au. You will need to 'login' to access information on many aspects of dental care and the important link now well established between poor dental health and medical conditions including stroke, heart disease, diabetes and pneumonia.

Our preventative dental care programs, individual care plans and computerised dental recall system will help to maintain your oral and general health.

The enjoyment of one of life's greatest pleasures - the tasting, chewing and eating of good food should be your goal.

Your family can rest assured that ongoing dental care is always close at hand.

Please do not hesitate to contact staff with any enquiries
